New for One Man Band Ultimate Carrying Solution from Kata

Carry everything you need in just one bag? Kata's One Man Band is the ultimate mobile production solution for the field videographer on the go. Whether in transit or shooting, use just a single One Man Band bag to replace the many bags typically required for field work.

The One Man Band is made with Kata-level protection from watertight zippers to a sturdy aluminum frame and multi-layered foam padding, to ensure the safety of your gear.

Each of the four One Man Band models is designed to hold a HD video camcorder with accessories such as a matte box, external microphone, battery and transmitter attached. The height of the bag allows videographers to carry a fully accessorized camcorder for rapid shooting access. The main compartment is customizable and the numerous external pockets allow the One Man Band to be the perfect bag for your unique gear setup.

One Man Band 72

Perfect on board bag to fit cameras from the Sony A1 up to the Sony EX1. Designed to fit in the overhead storage compartment for most domestic airlines, the One Man Band 72 can also fit accessories such as an external microphone, batteries and chargers along with your camera.
