Manfrotto Presents M-Y Tripods New, Lightweight and Compact!

Manfrotto is proud to present the M-Y family of tripods - the new lightweight compact tripod in the Manfrotto range. Designed for photographers using lightweight DSLR, compact and bridge cameras, the M-Y tripods are the perfect balanced choice for improving your photography.

Small, portable, compact and reliable, the M-Y Tripods offer a perfect tripod + head combination. Without the hassle of choosing a separate head, M-Y tripods are always ready to be taken virtually anywhere. Available in two different sizes with different payloads, M-Y tripods are equipped with two new heads: a three-way (suitable also for lightweight video camera applications) or ball head.

7301YB - M-Y Tripod with 3-Way Head and Quick Release Plate

The 7301YB has an integrated 3 way aluminum head. This tripod is designed for providing smooth movements when using small video cameras or photographic equipment. The head has separate pan and tilt locks, a quick release plate and a short ergonomic bar, particularly useful for panning or tracking moving subjects. The tripod legs can be set in two different angle positions thanks to a new designed selection system, allowing for low-level set-ups. The product comes complete with a carrying bag.

7302YB - M-Y Tripod with Ball Head and Quick Release Plate

The 7302YB incorporates a quick release ball head with +90°/-90° orientation grooves and repositionable locking lever. Legs can be set at two different angles and it comes complete with a carrying bag.

7303YB - M-Y Tripod with Ball Head

Similar to the 7302YB, except for the quick release ball head, the 7303YB incorporates a ball head with +90°/-90° orientation grooves and repositionable locking lever. Legs can be set at two different angles and it comes complete with a carrying bag.

7321YB - M-Y Tripod with 3-Way Head and Quick Release Plate The 7321YB is a tripod-head system with an improved lightness and compactness. The tripod has a built-in video/photo 3-way head with ergonomic bar, independent pan and tilt locks, and a quick release plate. The legs are adjustable at two different angles, to suit your shooting environment. It comes with a carrying bag.

7322YB - M-Y Tripod with Ball Head

A four-section compact and portable tripod with a small ball head. Legs are adjustable to two different angles, and it comes with a carrying bag.

	36.0						

776YB - M-Y Monopod

Nothing is more compact, light and quick than a M-Y monopod. When you don't need the total "hands free" support of a tripod, a monopod is the best solution. A four-section, lightweight monopod with rapid action extension locks for cameras and spotting scopes, up to 4.5kg in weight.
