

## What software do the Pros use to display and sell their work online?

For distinguished professional photographers such as Frans Lanting, the choice is clear. "Lightbox has played a key role in making our collection accessible to a worldwide audience. We've had great support from Lightbox when we've needed to upgrade or add our own customization to the standard interface." Frans Lanting ([www.franslanting.com](http://www.franslanting.com)) has been using the Lightbox Photo™ system for over four years for his stock photography sales.

"Lightbox Photo™ empowers photographers by allowing them to present their work how they want, where they want and when they want," comments Adrian Ellis co-founder of Lightbox Photo™. "It has a raft of features specifically aimed at photographers wanting to display and sell their work online. This is where our software plays a key role; allowing the photographer greater flexibility in the products and services that they offer, while maintaining full control over their images. It also gives them direct access to the customer who may need additional image research or want to commission a photo shoot."

The cross platform, server side software gives users all they need to create a dynamic and exciting e-commerce enabled photo gallery website. Lightbox Photo™ combines PHP and MySQL to produce an inherently fast and highly scalable solution. It is a feature packed online gallery maker and digital asset manager, that gives users the ability to auto generate thumbnails, watermark images, create private galleries, view slideshows, offer a variety of products including instant downloads and much more... The software can be used as a stand-alone website or seamlessly integrated into an existing website.

Jim Goldstein of [www.jmg-stock-photo-video.com](http://www.jmg-stock-photo-video.com) a customer of Lightbox Photo™ says, "Lightbox Photo has proven to be a great tool enabling me to provide an independent, reliable and professional solution to market & sell my photographic work. What has further enhanced my experience with Lightbox Photo is the flexible, skilled and courteous staff behind the product. As great as the product is the customer service has been even better, exceeding my expectations from implementation of custom design to basic support. All around my Lightbox Photo experience has been exceptional."

Building on more than six years of success, Lightbox Photo™ has customers in over 50 countries around the world and strives to be the industry leader in photo gallery software. Lightbox Photo™ allows photographers to create their own stock photo libraries or online proofing systems, meaning no more commissions to third party providers.

Lightbox Photo™ is available as a Standard, Professional or Enterprise Versions. Visit [www.lightboxphoto.com](http://www.lightboxphoto.com) for further information.
